

Msmart

Intelligent Touch Screen Interface

One Interface for Multiple Meters, Relays, Starters...

Msmart is a 7" full color interactive touch screen

- Combines multiple relays & starters into one unified interface
- Simplifies setup using a single touch screen
- Plaintext interaction in any of the 8 supported languages

Touch-free and gloved interaction even in harsh environments

Quickly view system status with a single touch without the need to look at multiple meters and keypads

Motion sensing wake-up and capacitive screen overlay

Select from Multiple Metering Pages

Collects and combines data, displays information

Easy page driven programming for faster set-up adjustments

Compatible with

All Motortronics Relays and Starters
Standard on VMX S.A.F.E. & MVC4 Series Starters
Available on all Engineered Solutions
UL Listed
